

Beavercreek Skyhawks Sports Camps and T-Ball League

Dear Parents,

We are happy to announce that the Beavercreek Skyhawks youth sports camps and t-ball league will be fully-operational this summer! This summer will look different compared to previous years, but we hope to teach active experience skills to the kids that they can use in their futures. Safety is the number one priority, so the Skyhawks program has instilled different protocol levels nationally for states to follow accordingly. We plan to operate under Protocol 2, which states the following:

Level 2 – Isolated Groups with Participation Interaction

Small groups of 10 or less each led by an instructor with loose restrictions on social distancing. Children may participate in drills, play scrimmages and engage in camp games within the small groups of 10 or less. All camp groups will be led by a different coach and maintain a distance of at least 15-feet to avoid large gathering sizes. The goal of this protocol is to limit contact and the spread of germs. Equipment will be sanitized after each session by program staff. Program staff will wear cloth face coverings when a social distancing minimum of 6-feet is not possible. Staff may be required to wear face coverings at all times based on direction from local Skyhawks management.

Along with the Level 2 Protocol, we also have some new guidelines in place for how we plan to run the league and the camps. These are as follows:

- If any staff, participants, or family members had been sick within the last 14 days, they will not be allowed at any leagues or programs until the minimum 14-day quarantine is reached.
- Check-ins/Check-outs will be non-contact. Parents will give verbal confirmation of their child's name and any special notes for attendance purposes from 6-feet away.
- A participant's belongings will be spaced 6-feet apart.
- The roster packet sent out to parents will include: program information, attendance sheet (child's information and parent contacts), participant notes, staff/immediate family 14-day no-sickness acknowledgment, participant/immediate family 14-day no-sickness acknowledgement.
- Hand washing must happen before snack breaks. Children must wash hands for at least 20 seconds with soap or use hand sanitizer with at least 60% alcohol. Though Skyhawks will provide hand sanitizer for extra

precaution (while supplies last), **it is strongly encouraged that parents provide their child with their own bottle of hand sanitizer which should not be shared.**

- All equipment will be sanitized after each camp session and league games/practices.
- All of those at the parks (staff and participants) should not touch their faces, mouths, and eyes. All coughs and sneezes need to be covered with a forearm or elbow.
- There will be no high fives, fist bumps, hugs, handshakes, and any other form of contact.
- Parents: Your role is to provide your child with a water bottle, snacks, sunscreen (applied before arriving to camp), hand sanitizer (if available), and a towel to limit facial touching.
- The bathroom at Rotary Park will be operational. This will allow all staff and participants to use the restroom and wash their hands with soap and running water.
- **People who are older, pregnant, or have underlying health conditions have a higher-risk of developing complications from COVID-19. Those individuals should not drop-off/pick-up participants, participate in programs, or instruct programs.**

If you have any questions about the new guidelines, please contact us at parks@beavercreekohio.gov.

Sincerely,
The Beavercreek Parks, Recreation & Culture Staff
